

One Brand. Six Practical Pipe Solutions.

PP-R, HDPE, PVC and gutter products for distribution and projects

[PRODUCT RANGE OVERVIEW](#)

Published product information

This document lists the product families and nominal sizes currently approved for public use. Pressure class, material grade, wall thickness, pipe length, standards, certification, origin and warranty are confirmed separately before quotation and supply.

WHAT TO SEND FOR A QUOTATION

- Product category
- Required nominal size
- Pressure class/specification, if applicable
- Quantity
- Delivery location

01 PP-R Pipes

Listed sizes: 20, 25, 32, 40, 50 and 63 mm

Hot- and cold-water plumbing installations.

Distinctive green LIRLEE product identity.

02 HDPE Pipes

Listed sizes: 20, 25, 32, 40, 50, 63, 75 and 90 mm

Water distribution and general project pipework.

PN 6 to PN 25 appear as production headings; confirm the exact diameter and PN combination.

03 PVC Waste Pipes

Listed sizes: 1 1/4, 1 1/2, 2, 3, 4, 6 and 8 in

Building drainage, waste lines and related non-pressure pipework.

Grey variants are listed across the range; a white 4-inch variant is listed.

04 PVC Conduit Pipes

Listed sizes: 20, 25, 32 and 50 mm

Cable routing and protection in building electrical installations.

Confirm duty class, length, colour, wall thickness and fittings.

05 PVC Pressure Pipes

Listed sizes: 1/2, 3/4 and 1 in

Application-specific project pipework requiring a confirmed pressure rating.

Confirm PVC/uPVC designation, pressure class, length and wall thickness.

06 Gutter Systems

Listed sizes: 5 m length

Roof-rainwater collection and drainage.

Confirm profile, dimensions, colour, fittings and packing method.
